Libraries/Frameworks:	ExpressJS, Node.js, NextJS, ReactJs
Tools / Platforms:	Git, Figma, Canva, VS code
Databases:	MongoDB, MySQL

PROJECTS / OPEN-SOURCE

Startup Website | Link   *HTML, Javascript, Reactjs, TailwindCSS*
Developed a fully-functional website and implemented modern UI design and enhanced user experience through the integration of interactive elements. Managed the project end-to-end, including requirements gathering, code development, and deployment to production.

Gaming Website | Link   *ReactJs, TailwindCSS*
Developed a visually appealing and user-friendly website for a gaming club using React and Tailwind CSS. Implemented dynamic features such as game updates and resulting in a seamless and engaging experience for users. Utilized React hooks and Tailwinds utility-first approach to create a responsive and efficient website.

Expense Tracker | Link   *JavaScript, HTML, CSS, ReactJS*
Developed an expense tracking application using React as a code-along project in a course. Utilized React components, state management, and hooks to build a user-friendly and functional application that allows users to easily track their daily expenses.
